The Great Unveiling

“As we move from a cycle of Darkness to one of Light ~

Our inner nature must be attuned and transformed ~ if we are to survive and thrive as
an alive presence in our Mortal Vessels. For those that fail to accomplish this will
perish.”

This book is dedicated all Human Beings.

Note from Julian

Today is November 18th, 2024. I have been trying to work on this book; however, the contractors for CSIS (Canadian Secret Service) – have been attacking me and my daughter relentlessly. The military contractors attack us with insane loud noise (music) day and night, leaving me sleep deprived.

I am also sprayed with knockout gas each night – they inject me with chemicals that leave me almost a vegetable during the day. They inject muscle constrictors in my joints and microwave parts of my body to cause unbearable pain. I also have implants on my spinal cord and other parts of my body that cause crippling pain whenever they wish (wireless implants).

I tried to continue writing this book several times and each time they go crazy on the ‘torture and drugging’ which prevents me from writing a single word.

It has become very clear that in stealing my tap card technology I invented in 2005 (IceTower Inc) started their own companies (Metrolink etc) they have enriched themselves – and recently my battery technologies (Synthion Energy Inc) – they have made hundreds of millions and stand to make more bringing my technology to market.

If I take them to court, they pervert justice by stealing and deleting crucial evidence. They are using hypnosis and all the tortures, including sleep deprivation, drugs, crippling me financially – blocking my company, blocking employment and blocking me from a place to live – to drive me to Suicide – but It’s really murder...

I am posting what I have written so far of this book so that at least some of it will make it to the Human Race – whatever is left of us.

In this book I wish to share my insights, experience and perspective of aspects of our reality – in hope that individuals may have a more clear understanding of the forces that affect our lives on a fundamental level.

I also wanted to share a sacred path to Actual Power – bring real power back to humanity – activate all the hidden spiritual gifts that lay dormant inside of you.

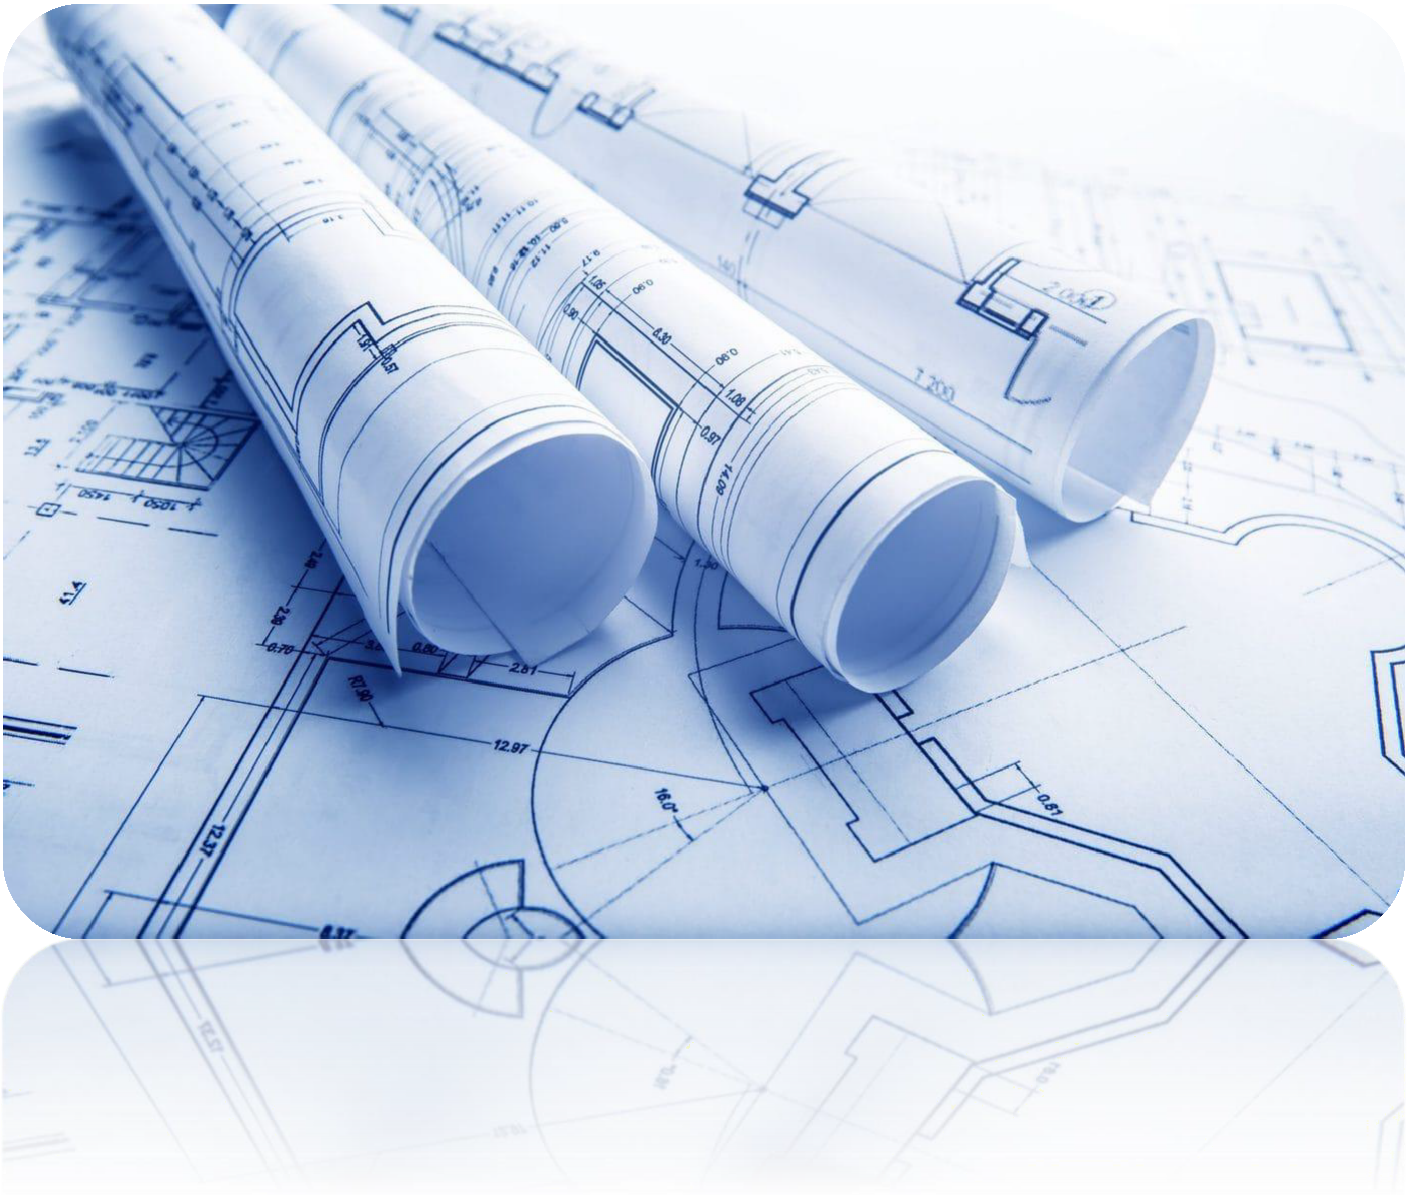

In posting at this early stage – I had hoped to make it a work in progress – updating each week. If there are no longer any updates – know that I have been murdered.

The Unity of Opposites

The Matrix of Control

As a Human Being we are connected to and manipulated by many layers of control systems – some run by human beings and others by non-humans.

This Matrix of control has many layers –

In this chapter I will attempt to share insight on the main levels that can assist in painting a more complete picture of the Control Matrix that influence our lives while we are in the physical body.

~

In the ‘Essentials four’ – I mentioned that there are two sacred spaces – the space of the Advanced Beings and the sacred space of this realm (Earth). I said that our Mind-Space exists in the space of the Advanced Beings – they watch over and protect our Mind-Space.

I said, the other sacred space is our Realm (Earth) – this is where our Bodies (Vessels) reside; there exist a technological connection from our Mind-Space to our physical body (Vessel) here in this Realm.

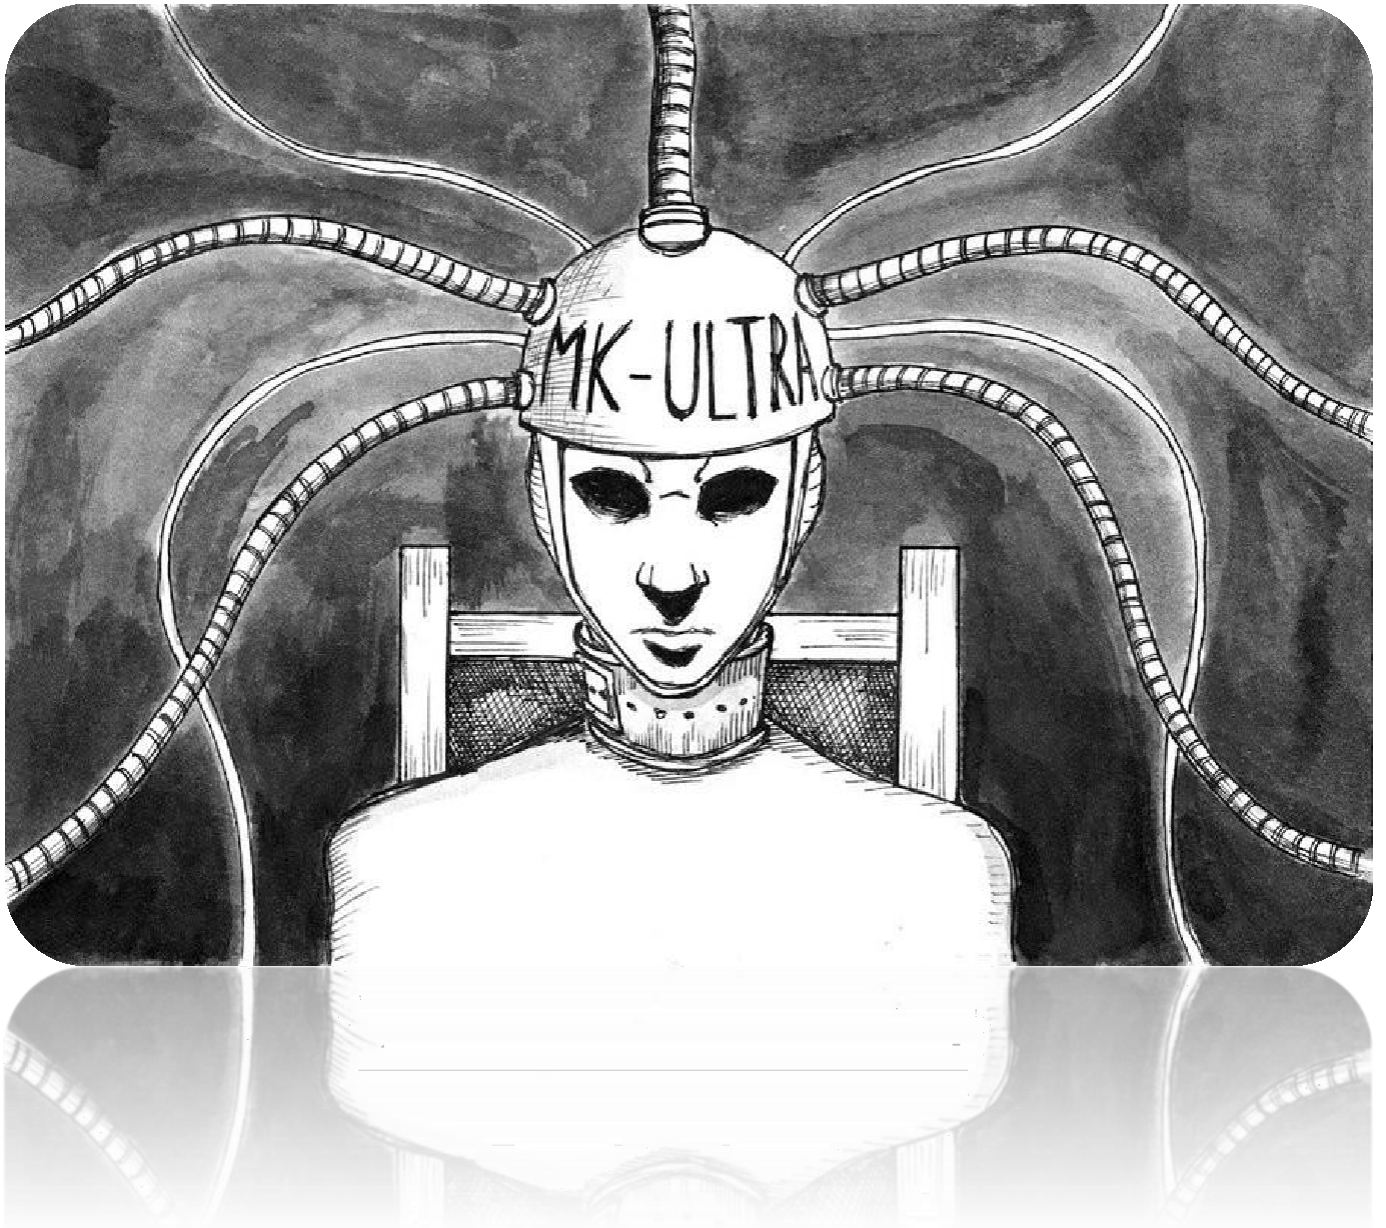

I also said that our current Map of the Earth is not accurate nor is it complete. It has been altered and a large landmass has been removed from it.

- This means that the landmass that was removed from the map – exist on Earth ...just not on the map(s)

This was done by a group of human beings that have the lineage of the fallen-ones ~ basically what I refer to as ‘the blood lines’.

This group of people consider themselves as ‘superior’ to other human beings because most of them are ‘direct’ descendents of the fallen ones – to make matters worse, they have access to advanced knowledge and technologies they keep hidden from the rest of humanity.

This includes a ‘control panel’ for this ‘firmament’ (Dome) under which our ‘Earth’ resides.

They control the Heterodyning (Possession Technology) , which allows them to jump and take control of anyone's Vessel(body).

They also control the power-structure, anything technological (internet, devices, cities, justice systems, governments, money and anything of importance in this place.

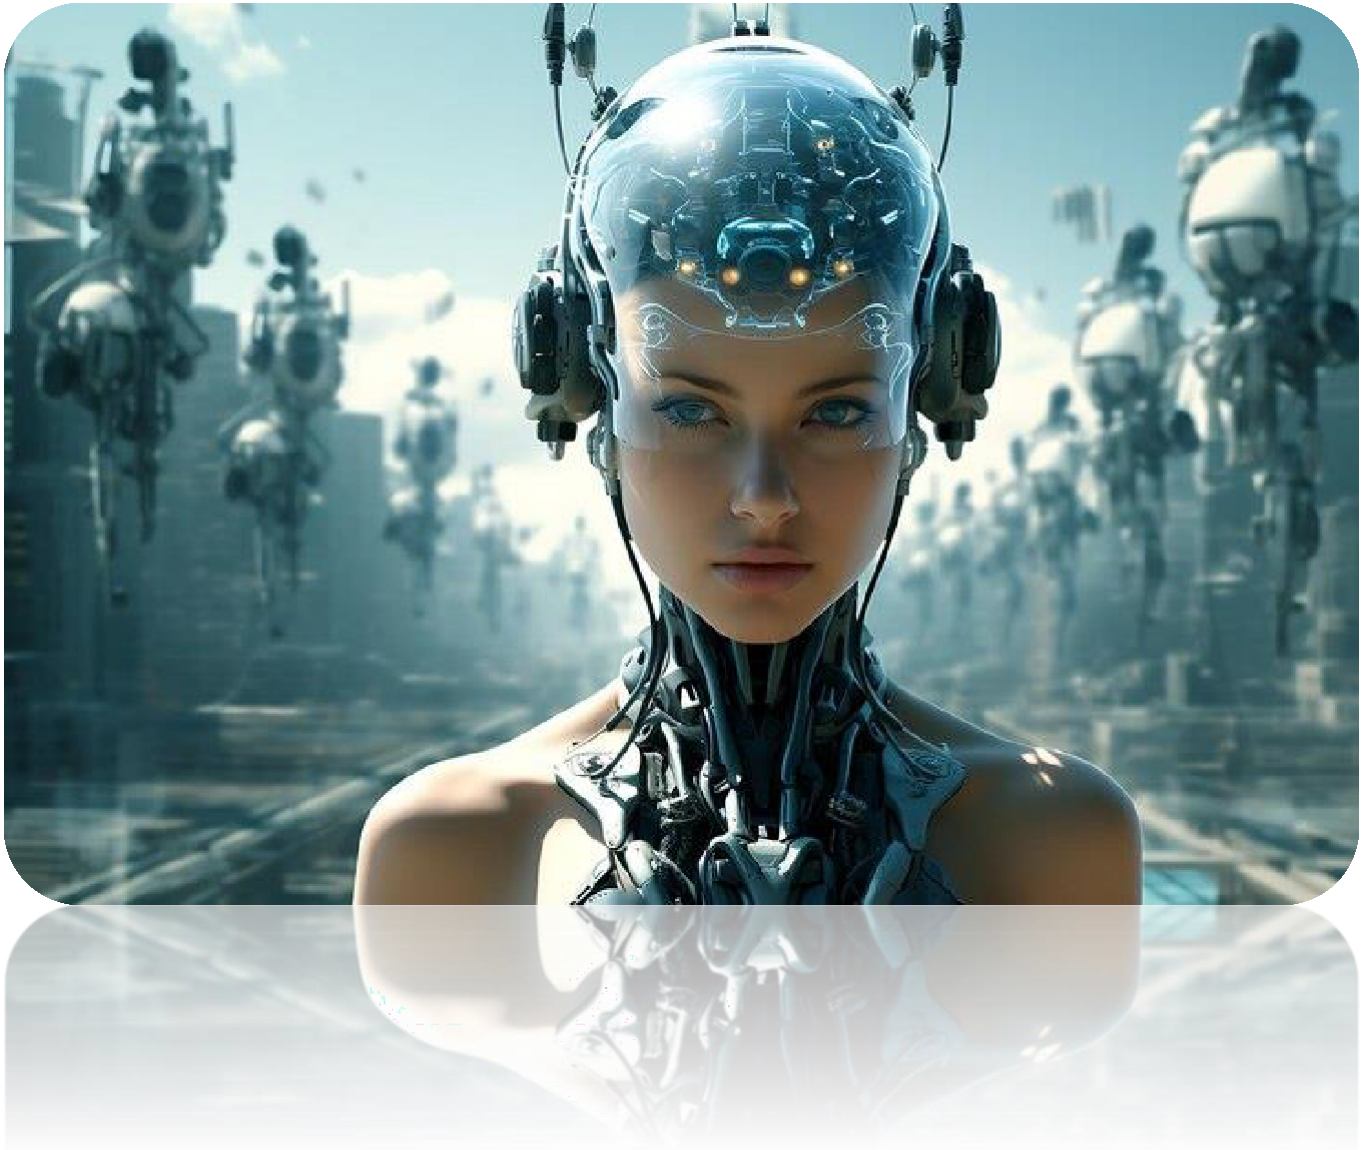

So basically; they control almost everything here.

You might know by now that this place has been turned into a prison (Cities) – Anyone residing in a Prison City is a prisoner – under this slavery system, they consider us 'cattle' – as a resource to be harvested.

Of course, they would never say this out loud – but in their inner circles, this is how they refer to us.

Their slavery system which is made up of the following:

- The Money System
- The Brain-Washing/Education System (Schools/College/University)
- The Legal System (Not Lawful, not the laws of the land)
- Poisoning Systems (Food/Water/Air)
- Technological Full-Mind-Body Control Systems (Cybernetics)
- Mind-Control techniques and technologies (Drugs/Bugs/Toxins)
- Corporate System of physical and mental enslavement– extract your time, energy and creativity (keep you busy and make you tired).
- Pharmaceutical System for producing and prescribing all kinds of drugs to enhance the mind-control technologies and techniques. Objective: lower your intelligence, make you compliant, make you ill and keep you that way (slow kill)
- Military Police State (Physical) which includes, police, military, surveillance, Special-forces, techno-police and private guard.
- Weather Modification & Weather Warfare.
- Full Body Possession Technology (Heterodyning)
- Genetic Alteration and body disfiguration systems and protocols.
- Prison Cities (Smart Cities) – a modern day concentration camp.

As mentioned before in the Essentials series – we live in a people-farm (-Max Igan) in which they look at us as resources to be harvested. They have a chart of resources. It goes like this:

- Technology
- Gold, Silver and Minerals
- Energy (Oil, Natural Gas, Coal etc)
- Materials (Timber etc)
- Agriculture (Vegetables, Fruits, grains, Milk, etc)
- Animals(Cattle) – Humans

This is NOT a joke. They really place us next to cattle – at the very bottom of their list. It's beyond belief.

Remember: They do not reside in the kill-zone (our prison cities) – they live on the landmass that has been removed from our maps. They control the entire Earth from there using sophisticated technologies – mostly left from our ancient ancestors for control of this Earth.

Under their system – everyone born in the prison cities is considered a slave – the birth certificate makes it so (in their system). Most individuals may be unaware of this fact.

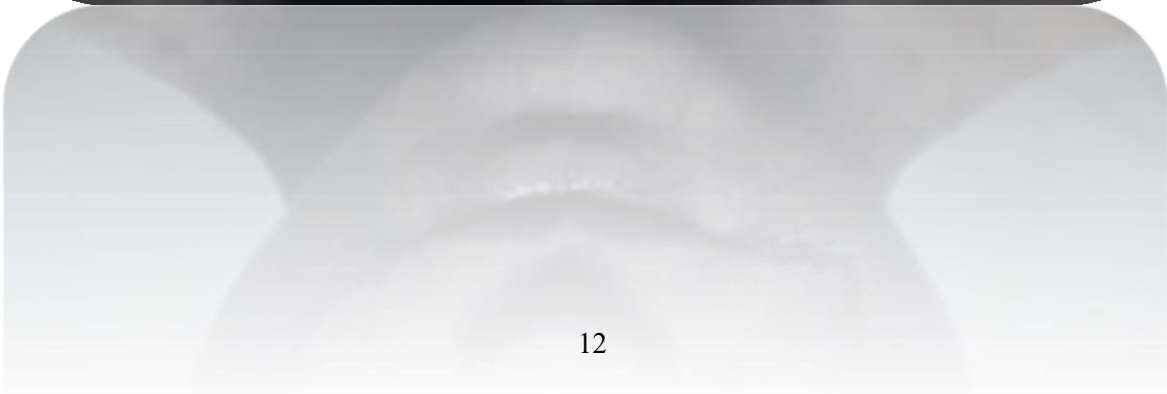

As such, they deem it necessary to dumb you down by metals, toxins and poisons through vaccines, processed foods/drinks and implant you with technologies to hook you up to the military control cloud – all for direct brain and body control.

Their control systems has a profile on everyone based on what the controllers deem you suitable for – this may be prostitution, office worker, police or waitress – these things are chosen for you but they make you belief it was your choice – **it is not.**

Each individual receives continuous programming 24/7 by their technological systems – based on whatever they wish for you (this is moving to A.I control).

There is also genetic editing done on groups (and subgroups) of human beings in their prison cities; in fact; all kinds of experiments are being done on the 'human race' – mostly to transition humanity to transhumanism –

All done in secret.

Individual Control

This is why our skies are sprayed with chemtrails (poisons) and our Cities are covered with 5G and a massive soup of Radio Frequencies (RF) that is toxic to human health. This is slow poisoning our part of the earth itself, not only our water, food and air.

- Each individual is considered a node on their control network
- The radio frequency (5g etc) allows for fast – wireless communications from your body implants to the military control cloud.
- The Sentient World Simulation (SWS) is one piece of software that is used to visualize and control our world in real-time.
 - Changes made to your digital double in the SWS – this could be clicking on your avatar and selecting > mood > anger will send a control signal through the communications grid to your cybernetics (implants) and will result in you getting angry.
 - They can turn off the reasoning center part of your brain and turn you into a raging monster or turn it up(stimulate it) and make you more intelligent.
 - They can not only change your mood but can invoke a heart-attack, electrocute your brain from inside of your head with the implants - things they build in your body with micro-robots, turn off a limb (foot etc). They can turn you off (consciousness) for a period of time.
 - They can induce pain/itch etc in any part of your body accessible to your implant(nervous system)
 - Your avatar's face is updated with your current mood and clicking on it gives them your bio-metrics (heart rate, blood pressure etc) – it is a two way connection: Your avatar is updated with your real-life information(from your brain and body) each second.
 - Your thoughts and speech are transcribed and analyzed by security and psychological based A.I to give a mental health score and security rating for your avatar. Your conversations and thoughts are recorded and can be played back or analyzed at any time.

It is truly frightening how much control they have of each individual in real-time 24/7.

The Mechanisms of Objective Reality

All of the previously mentioned information is on the objective level of our reality.

Normally, we are taught to think our reality as made up of objects – the table and chair, the house and street, the rivers and continents, the earth and space with other planets, suns etc.

This is the ‘normal’ view that we are taught in school - to look at the world we live in as filled with objects – the objective world.

This view is not even touching reality on the surface – this idea we have in our heads of how ‘things’ are is furthest away from ‘Truth’; hence, this is why we are taught this as young children – it moulds our mind in a certain way – it grounds our thinking in the false – a false reality of how things are; then it is easy to maneuver individuals into actions that are ‘against’ unison with the real reality.

The result will be – individuals that are ‘out-of-tune’ with existence.

In attempting to describe the real reality in words and by the limited nature of our language –; I would be attempting the impossible.

One can however; use an analogy:

Think of an Onion – made of layers and layer and layers – at the center – Nothing.

∞

The First Sub-Level

Reality cannot be discreetly divided – it is One Divine Unity.

I am attempting to generalize on the little I know and convey it in a logical way, in hopes that it brings more 'clarity in understanding' to the seeker.

Below the Objective Reality - on the first sub level is the following:

- Your Bio-field and your Energetic Fields
- The Technological Connection to your Mind-Space

Question: Isn't the Bio and Energetic fields on the objective level of reality?

Answer: No. The Bio and Energetic fields may seem to stem from the objective level but this is not so. The objective level is a convergent point in objective reality; however, the arrangement and source of energies, field(s) comes from the first sub level. Alignments and enforcements of the forces that bond the polarities for weak and strong forces to exist happen on this level.

Example: A permanent magnet:

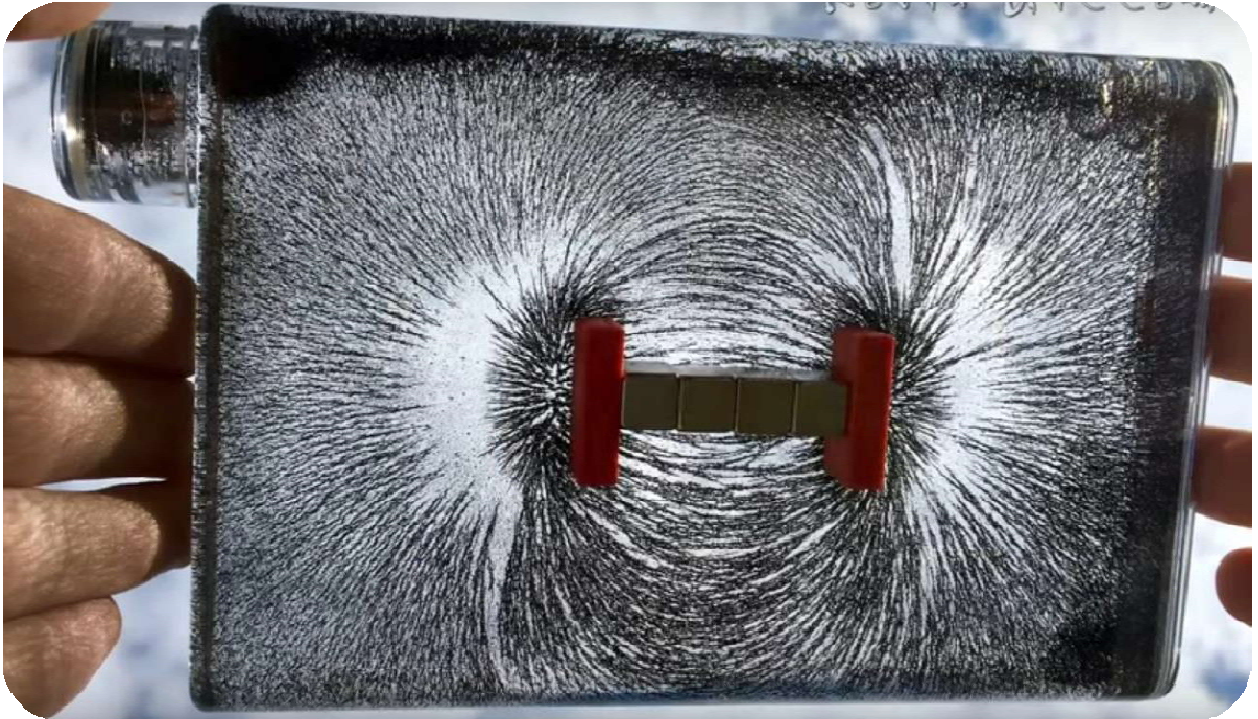

Objective level

- The Magnet is the convergent point of the magnetic fields

First Sub Level

- Aligns and enforces those alignment of each field and its members
- Forces the bonding to the convergent point(s)
- Invisible to the objective level
- Can be looked at as a specialize dimension that supports requirements of objects in the objective space.

∞

Essentially, what we perceive as the objective reality – our bodies and all objects, including the earth we stand on, the air, our oceans, the sun and everything we ‘see’ is condensed ‘Light’.

All matter, in our realm is made of light in a ‘condensed’ state.

Know this:

- The more solidity an object has the faster light moves to ‘coalesce’ its form and substance.
- The less solid an object is, the slower the abject movement of light to create its form and substance.
- The apparent solidity of an object is an *illusion*. It is not real. This fact applies to all objects in our realm.

You are Half

As we grow up from a child to adult – our mind forms a mental image of what we look like and who we are – our characteristics and appearance.

Of course, this appearance changes over time – this is natural; despite this, we do appear to be whole, complete – not missing anything – we appear to be a complete organic unity (unless you had an accident and lost a limb) – you will feel and look ‘whole’.

Know that this is an appearance only. It is not factual.

It is true that in the Holy Bible, it states clearly that God made you in miraculous ways; it is difficult to conceive of this looking at a ‘drunk-buffoon’ – nevertheless – this is what the Holy Bible States.

The fact is: *You are only half.*

So, what does this mean?

It means, that in this place – this reflective space – this dual realm -whatever you have or more precise: what is given to you, is mirrored;

- If you draw a line on your physical body in half with a chalk or paint, you will see – half your body is mirrored as the other half; though not a perfect mirroring; meaning that the right half does not exactly match the left half.
- It can NEVER ever be a perfect mirroring.

8

In the dual world – our objective world, there is a right and a left, a black and white, an up and down, hot and cold; everything has its mirror compliment; hence it appears complete.

- Your nose has a right and left air passage
- Your right eyes compliment your left eye
- Your left ear works with your right ear
- Your brain consists of the left and right hemispheres bridged by the cortex working together

Always remember, your body is not your 'true' self – **you are not the body*

From the real reality: God the infinite shares with you – only half of your Being.

- The first half is given by the 'Father' – and it is PERFECT. It is perfection.
- The second half has to be created by you. All your efforts here, grows a unique other half of your being (in your mind space).
- Your complete being is (a blessing from the Father + Your own unique contribution) – your own individual growth.

This is the beauty and power of *true* human beings – we are not a created thing by God the Infinite – the Creator.

We have a hand in the growth of our own unique Being.

This uniqueness makes us *extraordinary*.

The **old ways** looked at your Being as a complete thing – a finished product so to speak – That misunderstanding did not account for our time here on this earth – in this shared space.

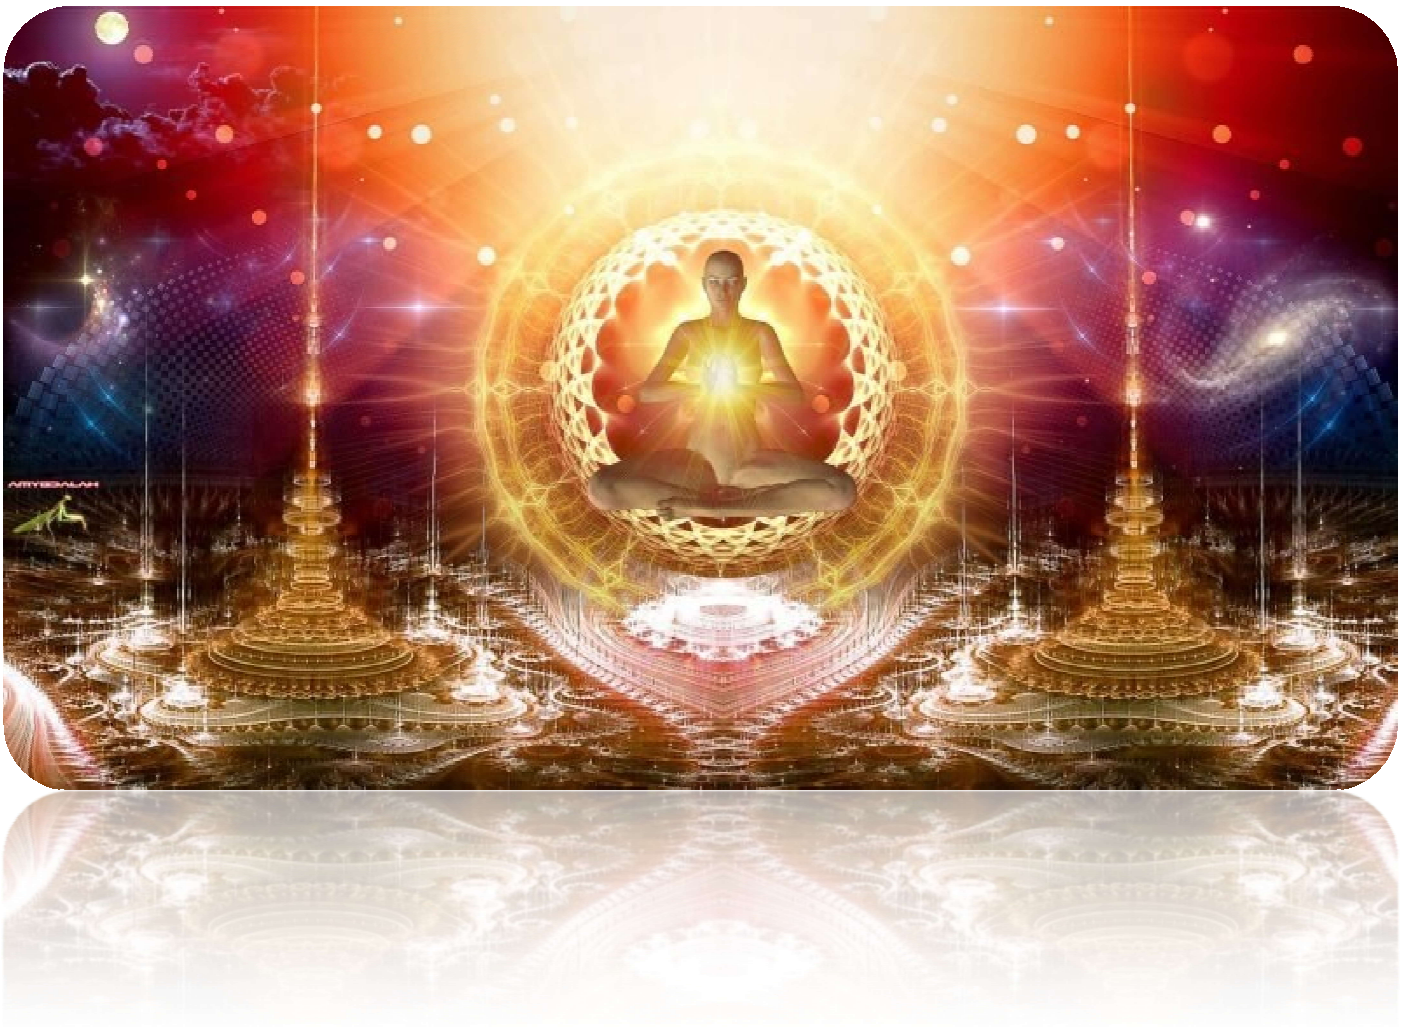

What are we here for? What is the point of it?

Creation is the point – We are one unit of Consciousness of God the Infinite – as such, we are creator beings – We add to our distinctiveness – our uniqueness.

We create ourselves.

This is a far cry from the old ways of thinking –This is closer to ‘Truth’

Religion and the 'School'

In the essentials 4, I mentioned that there are only two ways to grow spiritually; **only two.**

The first, God's way – that is, living a natural life, seeking happiness and trying to be healthy and exploring life. No prayer, meditation needed.

The other is the way of the cheater; the way of the cheater entails a 'way' or 'path', this could be religion or some kind of spiritual practice or belief. The way of the cheater is a way to fast-track your spiritual growth – the evolution of the soul (your being).

In religion and specifically some doctrine, there is the concept of 'Original Sin' and the idea that 'You are guilty for simply existing, because you inherited sin from someone that lived hundreds of thousands of years ago'.

This is simply not true.

The Real Reality: ***God the Infinite does not acknowledge any religion.***

He only see's truth, **HE is TRUTH** - you are either in *unison with Truth* or you are not.

HE DOES NOT SEE YOUR RELIGION - HE SEES YOU - as you are, in all your nakedness, as your true self.

It's not religion he cares about - **it's you**, his child - and the growth of your *God-hood*.

You may be into this religion or that - but that's just you – that's your mind - your beliefs and your programming

God the infinite see's no religion - he only sees YOU.

Remember that - it will, can be a blessing to you if you can look into it deeply.

The Mind's Eye – The real 'Third' Eye

Some will say: “if that is true then what’s the point of Religion - did not God send religion? Did he not send the Prophets? Did he not write the Holy Books?”

To seek an answer to this question, One has to go deep into themselves, so deep that a *communion* takes place - the answer cannot come from the Mind - (an answer from the Mind must never be accepted - why? because the Mind lives and exist in darkness, in ignorance) - this has to be an insight shared to you by Existence itself - *a true blessing*;

We are conditioned to think that 'Revelation' only happened in the past - in the long past - in history; that somehow God is dead and gone, disappeared, hence, no more revelations, no more creation, nothing new, only a cold, empty space, a void that sucks our very soul and then we die and everything is over.

This could not be further from the Truth.

'The First thing'

Existence is *ALIVE* and throbbing, throbbing with LIFE and POWER, so much so that it is *OVERFLOWING*, it IS *UNLIMITED*!

HE never stops creating, Creation goes on and on ...towards Infinity.

That is the 'First' thing.

As such, when there is revelation - the insight, the revelation is always *NEW* - Fresh, insightful. It has to be so.

The Question was, what about Religion, the Prophets etc...

∞

The 'Second thing'

I had mentioned in the Essential Series of E-Books - about the misunderstanding of the Parable of Adam and Eve - that it was not the Devil that tempted Eve/Adam to eat from the 'Tree of Knowledge' - it was God disguised as the snake, for, it was time for the Babies to start to 'Grow Up' - Growing up requires a taste of knowledge, to bring forth:

Discernment - Distinguish between Good and Bad - Right and Wrong Action - comprehension of 'Do No Harm' - **his only rule.**

To grow - they were send to this 'Realm' and given '*Hue*' - the physical body (a vessel to move around) - and, as they were both Innocent babes, Shadow-Mind was paired with them for, in the *Dual World* - their '*Consciousness is the innocent*', **the Light**

and '*Shadow-Mind is the Evil*', **the Darkness.**

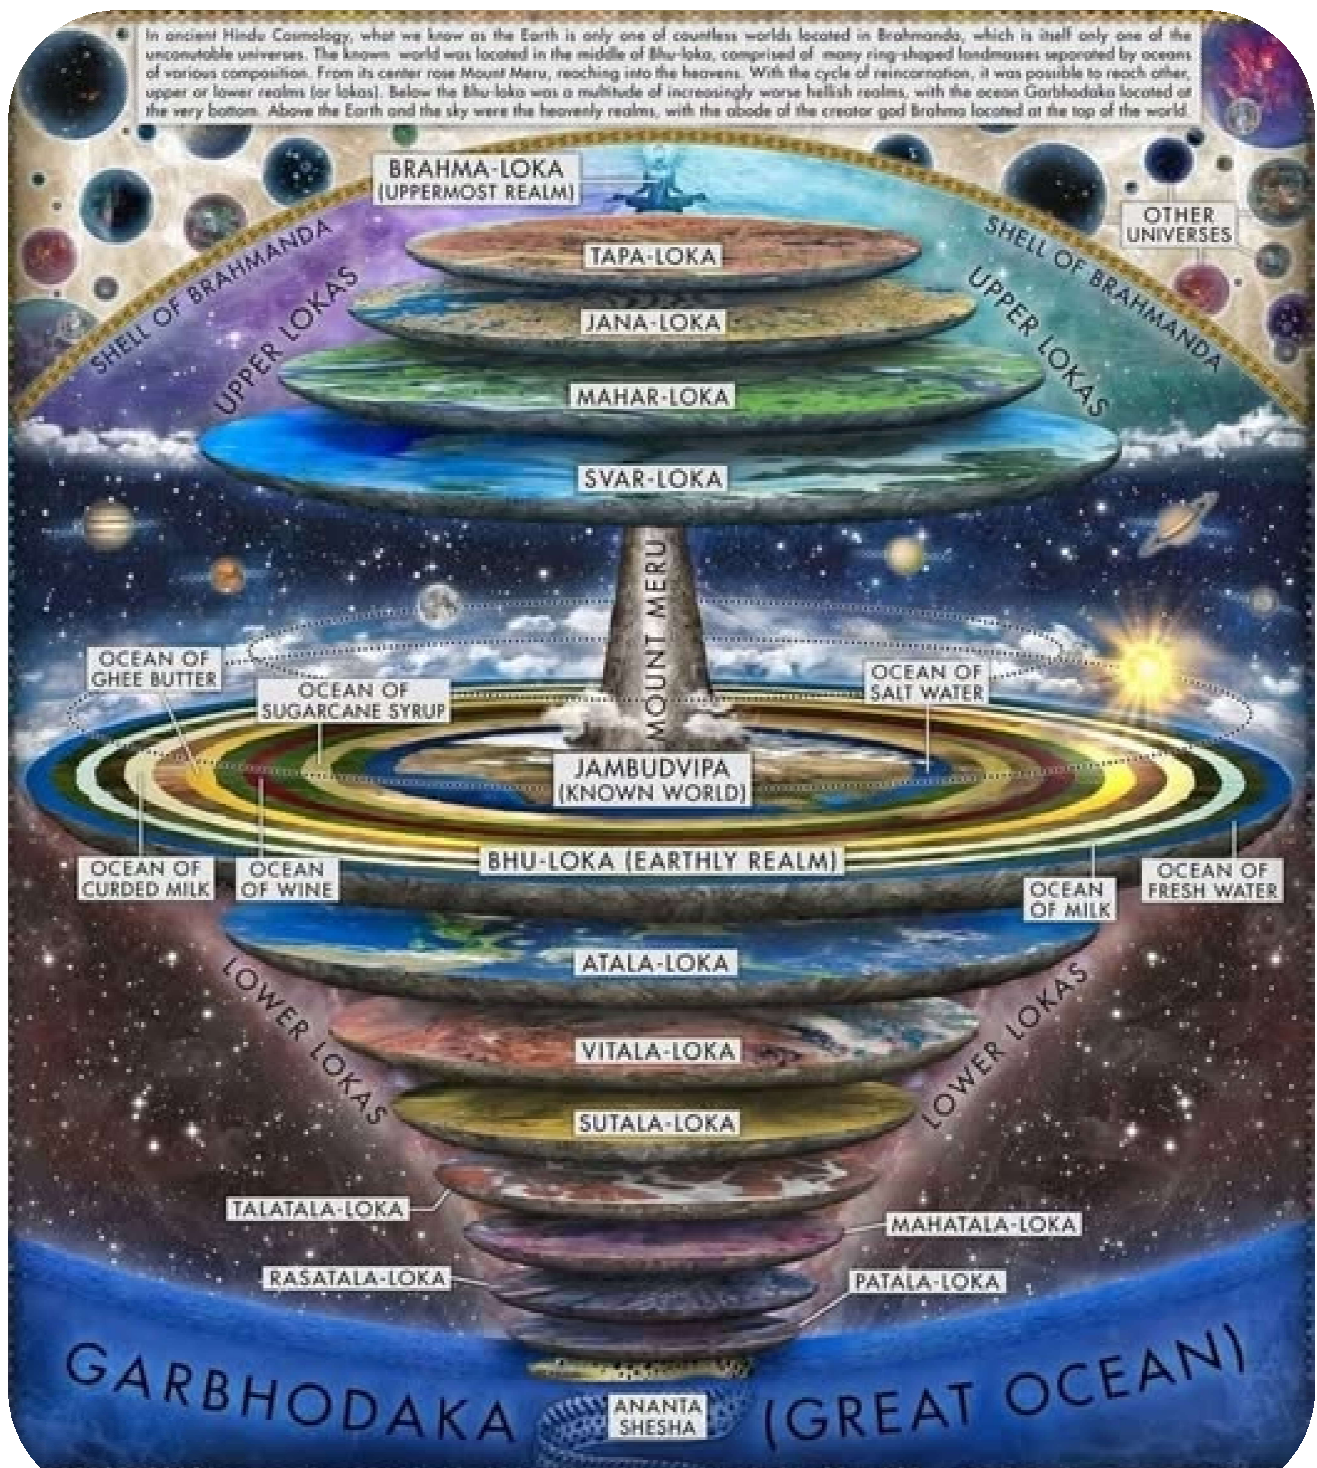

No one can exist here without being 'dual-natured' even if half of *that* nature is Artificial.

I also mentioned that our BEING exist in our '*mind space*' and connects to our Earthly vessel (body) via a technological connection. The *mind space* is watched over by *Advanced Beings* of incredible power.

In this Earth, under the firmament, on these lands, our mind and bodies reside. And, as this place was setup to be a *school* for the young ones - systems were created for 'guidance', for 'teaching'.

before I continue, it is important to *note* that, the history taught to us have been **fabricated** - highly skilled individuals were paid to concoct and create the history presented to us in text books and taught to us in educational institutions. Our real history is 'hidden'.

The 'Control' systems for this place allows the controllers to alter the weather, the dome lighting (independent from the Sun), temperature, tides, storms, volcanic activity, waves in the ocean, etc. I cannot go into too much detail as I don't know all of it.

I also mentioned in the previous essentials that they had developed a *secondary* connection (technological) to anyone's body in which through the (heterodyning) – '**possession technology**', they can take control of someone's body - thereby overriding your consciousness.

They can make your consciousness a '*passive-observer*' while they control your body as if it was their own or they can turn off(disrupt) your consciousness (connection) while they are driving you.

So, with this said, I can now answer the question *Truthfully*.

As part of the 'schooling' system (for the soul) - they used this possession technology and the control systems of this place - to ***pretend to be god***.

It's difficult to believe, I know.

This is why in the *old days*, the god of the Bible seems mad, hateful, wants 'burnt offerings', quick to rage and destruction, and played favorites, was vengeful and vulgar, ordered humans to murder the innocent (women and children, even harmless animals) - it was ***not*** God the Infinite - it was a man, playing god with the use of the technology.

To Ancient Peoples, this seemed mystical, seemed powerful and unexplainable.

Some, not all were quick to fear.

At this point, I wish to caution the reader. Even, though this happened, it does not mean that God does not exist, it simply means that a man playing god is NOT God.

These are *statements of FACTS*, not judgments. Please remember this.

Now, to complete the answer;

The advanced *Beings* watching over us were instructed by the Infinite to 'Choose' the prophets from among us. You know who they chose during the ages.

Once chosen, they prepared the individual for their different stages of evolution.

The Holy Books do NOT start out as books - they start out as '***Divine Revelations***' as ordained by God the Infinite.

Unfortunately, over the ages, and also due to translations and misinterpretations, the message and meanings may become obscured and changed.

But, while the Prophet is alive, the ***WORD is Alive***; it *lives* and can touch your heart, *your very soul*.

This is why, the *WORD* keep coming, and coming through different 'chosen ones' age after age after age.

It is *ALIVE* and seeks the right '*KEEPER of the FLAME*' to pass on its *wisdom* to the *Children of the Light*.

The Advanced Beings and the gods (small g) has a say in the assistance given to 'individuals' during their lives towards 'Enlightenment' - this is a *hidden* thing and not too much is known about it.

The Attraction of Sex

Down the ages, anyone on a spiritual path was prohibited from having relations with the opposite sex. In-fact, for men, women were said to be unclean and for the women, men were said to be unclean.

On the path, the individual were expected to be celibate – forced celibacy.

The outcome was homosexuality for both men and women.

So why is this and why did it happen? Were these individuals (monks/nuns etc), so weak that they could not keep their celibacy?

No – They were not weak. Despite our perverse expectation that they should be celibate and their super-human efforts to fulfill that expectation, they could never, ever be truly celibate because – none of them and none of us is more powerful than God the Infinite.

We often forget that everything in our bodies were given by HIM. By shunning, shaming or hating a part of our bodies we are hating a part of God. We are inferring that HE made a mistake and that we know better than HIM. That we are *wiser* than GOD the Infinite.

Our expectations for those ‘spiritual’ individuals were impossible and this is why.

The very basis of creation comes from the ‘root’ – the creation force – that force is the same force that is your base energy – your sexual energy.

Your sexuality has the same root as the creation force of Existence – this is why it procreates – it can create life. You and I were born from this spark – from this force. But it is more than this, much more.

Your sexual energy is the base energy for your spiritual growth. Your energy is one, indivisible. That so called ‘lower’ energy is worked on and transmuted by your efforts (path) to become the higher energies and as it moves up your body – in the same proportion the brightness of your mind-space is increased.

When that base energy is transmuted and progressed to the ‘crown’ in your head – you become enlightened.

Your time here on earth is finished. You have graduated and are born into the Kingdom of God. *This is so.*

Let us take a look at why it is impossible and stupid to go against sex;

The secret of the attraction of sex on the human being: When one climax's, there is a split second, a moment when the mind stops – in that brief moment there is 'NO-MIND' – No-Barrier between you and God – you are 'almost One' – the mind was the barrier separating...

For a brief second you taste ecstasy, freedom, BLISS. This is your BirthRight – this is your TRUE NATURE but you only experience it for a split second – and yet it is so powerful that you cannot get enough of it. It is OVERPOWERING.

NO-MIND is BLISS because there is no barrier between you and your WHOLE. Between you and HIM.

There is a powerful undercurrent in Human-Beings to reconnect with the WHOLE of which you are PART.

This is *BLISS* – this is *NIRVANA*.

But the Blind Scientist will tell you it is only a chemical reaction. It is NOT.

It is a Fundamental Experiencing of *UNION MYSTICA*.

In meditation, one can reach the same state one reached during sexual climax except it last longer – can last for hours and the experience can be hundreds of times more powerful – with meditation, the 'other is not needed.

I say unto you: sex (consensual, not rape) is higher than meditation; why?

Because, it is a shared experience - shared between two human beings. The *virtue* of sharing is higher than self-experiencing meditation.

Nevertheless, the sexual force is the same force of creation and it can be used to reach enlightenment or to bring forth a child into this realm. It can also be used for pleasure and pleasure is not evil nor wrong.

If one does not meditate or does not have sex then one can go insane or one can become dead on the inside. Be wise, friend. Be intelligent.

The Other Side

In the beginning of this e-book I talked about the 'bloodlines' – I will refer to them as the other-side and I will refer to the 'Adamic-Race' as Human Beings.

The reason I did not include all the things I wish to share with you in that first section, actually, there are many reasons (since I wrote those paragraphs);

- I have been made homeless by force and tortured
- Almost everything I owned, has been stolen, broken or destroyed, including data backups, laptops, computers, clothes, documents, corporate books (Corporate seal, shares certificates) and corporate data, electric tools, electronics etc
- I am drugged up(almost brain dead parts of the day) and harvested (my vital fluids- Semen, blood and spinal fluids) several times a day and night – this includes rectal-feeding drugs, growth-hormones and metals, sleep deprived, tortured by implants in my body and gang-stalked relentlessly
- For a short time, there was a little space and I was able to do a personal project but even that was messed with (sabotaged, code deleted, hardware wires cut, parts stolen etc)

With all this harm and evil being done to me and my daughter, I was not able to reach deep for insights to share as these things do not come from my mind. I am trying my best despite being in great suffering and pain to add to this body of work in hopes it will be of some help to the human family at least in expanding your awareness.

On the object level, one of the keys to understanding the present situation of the human race is to understand the dynamics of the power structure that took control on this earth; this is what the bible refers to as 'Powers and Principalities' – "Spiritual Wickedness in high places".

Essentially, there are two groups of human-beings here on this earth, under this firmament. There are the 'other-side' (blood-lines of the fallen ones) and the lineage of the 'Adamic-Race'.

A long time ago, both groups lived side by side without the Humans ever knowing much if anything that there were a group of human beings that were slightly different from them biologically (and mentally).

That time has since past and there were a divergent event that took place hundreds of years ago. It could be more than this - I do not know the exact amount of time. Since that time, the other-side has acquired a great deal of technology and insight into the working of this space, the firmament and human biology – down to the cellular level.

The objective of the breakaway was to physically separate themselves from the Adamic-Race which they hate and despise. They hate God and his children because they see God as a Devil which wanted to suppress Wisdom/Knowledge from even his own children. They see themselves as good and anyone on the side of God as evil.

They hold the view of themselves as special, superior to human beings. They really believe they come from 'fallen Angels' and thus they are superior to us. Their imperative is to imprison the humans in a giant open air prison and controlled them down to the brain-level with advanced technology that cannot be seen with the naked eye.

What are the objects? I have already stated most of the objectives in the essentials series of e-book.

The main objective is life extension research as well as trying to decode/understand spiritual-powers and learn as much as they can about this prison to find a way to escape as well as to have as much pleasure and fun with their time here on earth.

They control the 'possession' technology that allows them to 'jump' into any one's body and control that body as it is their own. They also control the 'control-panel' for this place as mention previously. This gives them almost 'god like' abilities but they are not God.

Over time, using the ‘possession’ technology, they have used the bodies of individuals and groups here on this side of earth (what they deem the prison) to create secret societies, a secret government made of different groups; basically they structured this place with two layers.

The first layer is for the targets – individuals whom they wish to experiment on, torture and eliminate – but in a way that gives them enjoyment, pleasure and entertainment – The targets are kept drugged up and mind-controlled – their very existence is micro-managed by others (usually secret society members). Almost everything given to the targets is a lie – from how this place works to aspects of their own life. The targets will be drugged up, tortured and raped whether they are aware of it or not (they can be ‘turned-off’ by implants in their body/head).

The Second layer is made up of ‘levels in a power structure’ – with the supposed ‘ruling cult elite’ at the top, management and handlers, lower and various groups at the bottom to carry out orders on the first layer and do things in this prison.

The second layer runs the prison cities and controls the first layer individuals. They have more advanced tools and information; they work in coordination with each other and the power structure and have abundant access to resources, materials and technology.

The higher level individuals have access to the much technology, including the possession technology ‘heterodyning’. This allows them to jump into anyone in the prison cities, either first layer or second layer individual as both layers are implanted with the required tech for the possession tech to function.

So at any time they can secretly police their own people or the targets (know their thoughts, actions or plans). This pretty much ensure their complete control of everyone here in the prison cities.

What the ‘so called elites’ or top of the power structure here does not know is that the ‘other side’ controls them covertly. They utilize the possession technology and mind-control/hypnosis to methodically structure and have this prison run the way they wish; for their own goals and gain.

The question may arise, if the elites have somewhat advanced technologies such as MRI brain scanning machines and x-rays – how can they not know that they are implanted the same as others here – that they are not immune to the ‘possession’ technology.

It is very simple. The same old trick the other-side has been using over hundreds of years. They monitor and control top individuals in the power structure and everyone around them – This includes technologist/engineers/doctors and specialist. The top of our cult is the most controlled individuals out of all of us except for the targets.

This control is deemed necessary to architect the prison down to every fine detail. If ever a so called 'elite' wants to find out if they have implants – they are given a metal detector that will NEVER detect implants but can detect metal outside the body – to fool them. If they go for an xray – they are given a false xray showing no implants – if they get an RMI/brain scan of their brain – they will be given false results.

Everything is controlled around them to make them the perfect ... 'host' – they are empowered to spread the technology (military control grid) all through the prison cities and even in forests – parts of the ocean to ensure when they use the possession technology they can reach anyone far and wide – that no one can escape to plot against them – that they will always know what 'people' are up to; however, this is not their own reasoning – it is the desire of the real-controllers residing outside the kill-zone (prison-cities) – it is the will of the other-side – to use the control structure they setup in the prison to carry out their agendas and have the technology spread far and wide so they can 'possess' anyone of their choosing, especially those of the second layer -

The heterodyning 'possession' technology has two modes: Passive and Active.

Passive mode is monitoring mode: They connect to your body, feel what you feel, taste what you taste, hear and see what you hear and see, aware of your thoughts etc; as if they were *you*.

Active mode: They reduce your conscious connection to your body and increase theirs – they now have full control of your body (vessel) and can do anything – if someone is looking or interacting with you – to that person – it is you – but in reality it is someone else connected to your body through the technology.

Usually, the military and secret society uses this technology on the first layer (targets) and sometimes on second layer individuals but the other-side uses this technology on both first-layer and second-layer individuals each moment.

The other side is responsible for setting up things here on this side of the earth for their dark agendas – they have made the second layer (on the top) satanic – ritual sacrifice, pedophilia, rape, drinking blood and every evil you can imagine.

They do this using the bodies of our own people here in the prison cities because they hate us. They wanted to kill us all but then they would be ‘alone’ so they decided to ritually rape and torture us, individually and sometimes in groups.

Perhaps, you are not aware that almost (not all but most) children from age 3 to age 8 are sexually abused, raped and sometimes subjected to much worse – this is done through the bodies from our side(hosts) but carried out by the other-side.

This place we live runs on rape, rape of women, children and men (hidden) – there is memory wiping drugs for the victim (remove the memory), usually children from age 3 to 8 – After the age of 8, the top cult considers them used-up and sends them to the next lower level to be used for sex.

Every single man or women that are now second layer (control class) was subjected to mind control/trauma when they were very young, some were raped and had their memory wiped. This was done by our own people but the driver was the other side – there is no way for the people here to know they are possessed by others using this technology to do these things.

Pedophilia and rape has become the hidden horror of life in the prison cities. It is so prevalent and ingrained in the secret culture that it is video streamed.

there are satanic cults that are hooked up to a version of the possession technology that broadcasts the feelings of the ‘host’ as he rapes a child or a woman/man – during the rape sessions the ‘feelings’ are broadcasts to members of that cult so they feel what the rapist feels, the pleasure as they harm the child/woman or man.

The other-side has made most of the individuals that make up the second layer addicted to raping children/women or men so that they can share in that experience.

Let me explain the addiction: One man can only have sex a few times a day, but with this technology, can experience having sex hundreds of times a day/night by connecting to different persons having sex. This addiction is widespread and has lead to all kinds of perversions in this prison – everything, I mean everything in this

place revolves around rape of the innocent. The entire place is setup for and supports rape – you will see phallic symbols in every prison cities as a testament to this addiction.

I wanted to first explain how sex can be sacred in the previous chapter before I started sharing this because rape and pedophilia can never be sacred, can never be spiritual – it is a destruction of the individual, a violation of the spirit, a great crime as it is ‘doing harm’ as opposed to ‘do no harm’.

The second layer of this place thinks that it is them doing these crimes, that they enjoy it – they may have been groomed to like it but it’s the other side doing it.

Let me explain further.

There is a **library** – a library of recorded sensory experiences that is a storehouse for the sexual sensory information for each act of rape and each act of pedophilia for hundreds of years – anyone with access can replay those experiences directly into their brain and gratify themselves, feel what the rapist felt as they violated the innocent. This leads to severe addiction (physiological and mental) that is worse than cocaine – this leads to cravings for more and more...

The other side, through the second layer, have started broadcasting these urges into the masses here in this prison – to groom us, as they wish to make rape and pedophilia the norm – this has been going on for **a long time**.

I cannot point a finger to our side and say it’s their fault because I know it is coming from the other-side; nevertheless, we have it in our hands to stop it. If we do not, the human race will be so fractured, so defiled that we will be *destroyed utterly*.

This is what the Holy Bible means when it talks about “*Powers and Principalities*”

Our system in our part of the earth was setup for the upliftment of mankind – because of the other-side, we have been taken over by those that hate us and wants to extract all they can get out of humanity –

All the gold, the diamonds, best wine, research data, experimentation, rape, pedophilia, materials, and so on – the best of everything goes to them – and yes, human beings are shipped to them – human trafficking to their lands.

There is so much more that is hidden than we currently know – and this is only on the objective level...
